

INFORMATION

“We reflect on how God cares for all beings and creation. From Him, we learn to live with compassion, empathy, and attention to detail, nurturing our interest in everything that exists and intuitively understanding the needs of all individuals and the environment... We commit to creating safe spaces where the dignity of every person is honored...”. (Conclusions of the 31st General Chapter)

*We propose all of you to celebrate the **October 16** of each year, the anniversary of the Beatification of María Rafols, as the ‘**day of CARE and PROTECTION**’. We celebrate it in our communities, centres, activities...*

We are sending various materials to you in order to use on that day. May, in each community, centre, and activity, we be able to have gestures, attitudes, and gestures... that remind us and those around us of the importance and necessity of care.

*This year, we invite you to deepen in **active listening**.*

Organised by: The Field of Prevention and Protection.

Let us make our living spaces safe places!
