

CHAPTER AGREEMENT

COMMUNION WITH OUR BROTHERS AND SISTERS AND WITH CREATION.

Contemplating Creation as the Meeting Tent of God and man, we feel called to intertwine our lives in communion with the whole of Creation.

Feeling ourselves to be creatures of God, Sisters of every man and woman, we want as a Congregation:

- To look at our surroundings with the compassionate eyes of God, to turn our whole being to our poorest and neediest brothers and sisters, allowing ourselves to be questioned by them, in short "to allow ourselves to be evangelised by the poor". And as a response to the pain of the Earth and of Jesus' favourites, to make ourselves present in platforms that seek to be Good News for the world, from the defence of human rights and the denunciation of approaches that generate injustice and threaten life in all its manifestations.
- To strengthen ecological awareness, acquiring concrete commitments that lead us to improve the situation of the Planet, taking care of Nature and our immediate environment, using responsibly the resources that Mother Earth offers to all of us equally.

We know that, in this harmony with the Brother and the Earth, which must flow from our contemplative being in action, we collaborate "with the greatest care, with all detail, with all love" in the Creative Work of God.

We include in the General, Provincial and community Projects, concrete actions that help us to live this Agreement.
